WORK EXPERIENCE

- 2015 - 2018: Senior Front-End Developer**
Led the transformation of numerous client websites, implementing modern UI/UX design principles. Successfully integrated custom WordPress themes, optimizing for responsiveness and cross-browser compatibility. Collaborated with design teams to enhance overall user experiences.
- 2018 - 2021: Lead Developer**
Promoted to Lead Developer, spearheading cross-functional teams in delivering complex web projects. Introduced streamlined development workflows, incorporating version control systems and optimizing code for superior performance. Executed comprehensive SEO strategies, significantly improving online visibility for client sites.
- 2021 - Present: Web Development Manager**
Currently managing a dynamic team of developers, overseeing the end-to-end execution of diverse web projects. Continuously adapting to evolving technologies, I foster innovation and maintain our commitment to delivering cutting-edge solutions for our clients.

Design Tools: Adobe Creative Suite (Photoshop, Illustrator)

Figma or Sketch for prototyping

Collaboration and Communication: Team collaboration and project management tools (e.g., Jira, Trello)

Clear communication of technical concepts to non-technical stakeholders

Problem Solving: Troubleshooting and debugging

Familiarity with SEO best practices

Continuous Learning: Staying updated on industry trends and emerging technologies.
